Updates to the Decision Review Regulation Process

The Competitions Committee and Technical Committee have been working to remove the Decision Review Regulation from Competition Regulations and incorporating it into the Correctable Error process (Article 42) within the rules. The motivation behind incorporating a decision review into the correctable error rule was to streamline the process, as the basis of the correctable error and a decision review are similar.

The update will also allow for decisions made within the game to be corrected by the officials within that game, i.e., removal of the requirement for external consultation from the process.

If Referee 1 decides that a correctable error has occurred, everything that took place after the error is nullified and play is resumed from the point at which the error occurred. The clock and score shall be reset to the point where the error occurred.</p> <p>f. If the requested correction was not upheld by Referee 1, play will resume immediately. The coach who requested the correction will be charged with a technical foul.</p> <p>g. A coach is permitted to request any number of corrections. However, if the ruling goes against the coach, a technical foul will be awarded. If a coach has received three such technical fouls, no further requests will be permitted. Requests that are ruled in favour of the coach do not count toward this limit.</p>
